

Family Game Night

Here's a fun game for the family this season. It's been around for a long time, but is always fun.

Make enough copies for everyone. You can either compete individually, or have teams of 2 or 4 work together.

Very few people are able to solve more than 1/2 these the first time through. Many, in fact, report getting the answers long after the paper has been set aside!

Each statement contains the initials of words that will make it correct. Find the missing words.

Examples: "60 M in H" would be "60 *minutes* in an *hour*."

(For #25, you might need someone who can "remember back" a-ways!)
